

# Company Commander Commodities

Unit Catagory	Commodity
Unit Designation	Tobacco
Country	All
Unit Weight (Lbs)	250
Unit Characteristics	One unit of Tobacco. This unit is harvested from Tobacco Plantations and deposited at the location it was produced. In order to gain any revenue you must use a transport asset and a Movement order or Convoy Move to carry it to a point of sale. This is usually a Port Facility or a larger Airstrip where it will be sold at the Monthly Adjustment. Although prices vary the base sale price for each batch of 5 units of Tobacco is 5 MP (\$2500).

Unit Catagory	Commodity
Unit Designation	Copper
Country	all
Unit Weight (Lbs)	500
Unit Characteristics	One unit of Copper. This unit is mined from Copper Mines and deposited at the location it was produced. In order to gain any revenue you must use a transport asset and a Movement order or Convoy Move to carry it to a point of sale. This is usually a Port Facility or a larger Airstrip where it will be sold at the Monthly Adjustment. Although prices vary the base sale price for each batch of 1 unit of Copper is 5 MP (\$2500).

Unit Catagory	Commodity
