COMPANY COMMANDER 11

JULY 2009

A reported clash has taken place in the South East of the country between a Rebel faction calling itself Partido De Unidad (Unity Party) and the remnants of a Government Forces unit based at Mursa Falga. The Unity troops were engaged in a recon operation, when they were ambushed by the Government Forces troops. In the Brief clash, the Rebels suffered light casualties while inflicting a similar body count on the local troops. The Unity soldiers withdrew leaving their casualties behind under growing pressure from the village as the commander sent reinforcements to drive off the attackers.

Jason's Bit

Looks like the game is starting to take off. Those annoying Government forces are pretty powerful at this stage of the game and control some important locations.

Trucks are important in Company Commander, and you will never have enough. Be patient, and they will become available, but its how you use them that is important.

I am continuing with improvements and fixes so please keep me informed about anything that doesn't appear to work right.

Till next month.

Regards Jason
